

Computer Programmer

PreventionGenetics is a rapidly growing DNA testing company located in Marshfield, Wisconsin. We are seeking applicants for the position of Computer Programmer.

This position requires a Bachelor's or Master's degree in Computer Science, Computer Programming, Information Systems or a related field. Candidates should have extensive experience with Java, C#, Visual Studio 2008 .Net environment, and SQL Server. Job responsibilities will include designing, testing and maintaining applications for clinical DNA analysis, and updating, modifying and expanding existing applications. The candidate will also be responsible for the technical support and maintenance of existing applications.

We offer a highly competitive salary and an excellent benefit package including: health, dental, disability, and life insurance, 401k, profit sharing plan, and an employee fitness incentive plan.

Marshfield, located in central Wisconsin, offers a pleasant living and working environment. It provides an excellent choice of public and private schools and affordable housing. Marshfield is also home to a large medical center that includes: St. Joseph's Hospital, the Marshfield Medical Research Foundation, and the Marshfield Clinic.
